King Airport Passenger Elevator Closed for Repairs; Public May Use Freight Elevator to Access Second Floor

The passenger elevator at the Cyril E. King Airport is being replaced and will be closed to the public starting today, announced Acting VI Port Authority Executive Director David W. Mapp. Signage is posted near the passenger elevator to direct the public to use the nearby freight elevator in the terminal to access the airport's second floor where the VIPA Airport Manager's office, VIPA Law Enforcement department, and VI Department of Planning and Natural Resources offices are located.

Mapp said that the CEKA Terminal's passenger elevator has been in service over 25 years and is being replaced with a modern unit. Installation should be completed within 30 days, he said. The new elevator costs \$100,000 and was funded by the Port Authority in its fiscal year 2015 budget.
